

Yujun Kong

Contact: 244898831@qq.com | +1 201-736-2265 | +86 136-4176-5083

Locations: Shanghai | Hoboken | Jersey City | NYC

Research & Teaching Focus

Visual Communication • Digital Media • Human-Computer Interaction (HCI) • UI/UX • Web Technologies • Explainable AI (XAI) • Natural Language Processing (NLP) • Intelligent Automotive HMI • AI-RAG • Environmental Computing • Human-Machine Resonance • AGI Threshold: Emergence to Deep Infinity Mind

Education

Stevens Institute of Technology

- Ph.D. Program in Computer Science (Awaiting Funds)
- M.S. in Computer Science (Expected to Ph.D. Study)
- M.S. in Software Engineering (Conferred Jan 2023)

China Academy of Art

- B.A. in Visual Communication Design (Conferred Jul 2000)

Academic & Teaching Appointments

Stevens Institute of Technology | NLP-Stars Group, XAI Lab

Pre-PhD Research Assistant (Feb 2025 – Present, Remote)

- Conduct research on NLP/Chatbot Agentic RAG, AI-HCI Controllability, Context Engineering
- Explore Explainable AGI, Interactive Dialogue Mode (IDM), Continuous Learning, and AI Emergence

Donghua University | AGI Interdisciplinary Design Lab

Adjunct Research & Teaching Advisor (Feb 2024 – Dec 2024)

- Advising master's students on thesis research
- Mentoring undergraduate students for graduate school portfolio preparation
- Developing and revising course materials for AI-assisted design and web programming
- Supporting computer vision and textile design research

Shanghai Jiao Tong University | CAA Cooperative AIGC Lab

Visiting Research Faculty (Jul 2023 – Jul 2024)

- Teaching Python, JavaScript, and web frameworks to undergraduate researchers

- Conducting research in prompt engineering and convolutional deep neural networks
- Assisting cross-institutional research with Matplotlib, PyTorch, TensorFlow, and spaCy

Raffles Design Institute, Shanghai Campus

Full-Time Lecturer (Apr 2023 – Jan 2025)

- Teaching: Color Theory, Digital Media, Web Programming, Computer Science Basics, Thesis
- Developing curricula for pre-college and foundation courses
- Leading the RafFlow learning platform redesign for 300+ students

Cornell University (Cornell Tech, NYC)

Exchange Graduate Research Assistant (Jan 2022 – Jul 2022)

- Refactoring Cornell Tech official web portals
- Research on AI-augmented programming language design and paradigms
- Social Computing and Sociotechnical Systems Engineering

Shanghai Open University

Adjunct Lecturer (Sep 2016 – Jun 2018)

- Teaching UX, interface design, web programming, multimedia systems
- Curriculum research on web frameworks: Bootstrap, AngularJS, jQuery

China Academy of Art

Curriculum Developer (2019 – 2020)

- Developing teaching materials for UX and frontend design courses
- Teaching Figma, Adobe CC, Bootstrap, Java SDK, JavaFX

Key Research Projects

DouFunDriving-HMI | L3+ Intelligent Co-Pilot Interface

- Achieved 65% cognitive load reduction in driving simulator user study (N=42)
- Target submission: International Journal of Human-Computer Studies (2026)

Interactive Dialogue Mode (IDM) Framework

Stevens CS 810 – Explainable AI course project

- Human-in-the-loop clarification system for large language models
- Improved explainability by +0.72 to +0.89; reduced cost by 13%–40%

RAIDScript

- AI-augmented zero-code programming language for designers

- Multimodal DSL supporting RafFlow and intelligent HMI systems

Environmental Computing & Context-Aware Systems

- Stevens SSW 565 System Architecture project
- Architecture proposal for next-generation social computing systems

Selected Publications & Working Papers

1. From IDM to IDM: Evolution of the Interactive Dialogue Mode (2025)
2. From AGI to AGI: Artificial General Interaction to Artificial General Intelligence (2026)
3. DouFunDriving: A Co-Pilot Interaction Framework for Intelligent Vehicles (2024)
4. Environmental Computing: Necessity, Feasibility, Interaction, and Implementation
5. AI-Augmented Programming Language with Natural Semantic Understandability
6. Genesis from the Void: AI Art from Noise, Chaos, Paradox, and Failure

Professional Skills

- Teaching: Full-English instruction, curriculum design, thesis supervision
- AI/ML: LLM, prompt engineering, PyTorch, TensorFlow, NLP, spaCy
- Development: Python, Java, JavaScript, React, Vue, Node.js
- Design: Figma, Adobe CC, UI/UX, information architecture
- DevOps: Git, CI/CD, cloud deployment, VPS, testing

Career & Industrial Experience (Selected)

- Metropolitan Transportation Authority (MTA, New York Subways) NYC (2022, CPT)
- Estes Logistics - NYC, Queens (2017)
- Qiyu Financial Information Services Ltd. (2016)
- UDFEx International Logistics (2014 - 2016)
- China UnionPay (2013 - 2014)
- UNSPAY E-Payment (2010 - 2013)
- Zhaopin.com (2006 - 2009)
- 51job.com (2003 - 2006)
- Ericsson Telecom China (2000 - 2003)

中文版

教学与研究方向

视觉传达设计, 数字媒体, 人机, 交互, UI/UX 设计, 前端开发, 可解释 AI, 自然语言处理, 智能座舱 HMI, AI-RAG 环境计算, 人机共振, 通用交互智能 (AGII)

教育背景

斯蒂文斯理工学院

- 计算机科学 博士项目 (待经费落实)
- 计算机科学 硕士 (直博转入阶段 - 2025 春秋学期)
- 软件工程 硕士 (2023 年 1 月)

中国美术学院

- 视觉传达设计 学士 (2000 年 7 月)

研究兴趣

以人为中心的人工智能 · 交互式机器学习自然语言处理 · 软件工程 · 人机交互环境计算 · 情境感知系统 · 智能座舱 HMI 可解释 AGI · 人机共振 · 交互式对话模型 (IDM)

教学与科研经历

斯蒂文斯理工学院 XAI 实验室

科研助理 (2025.02 - 至今)

- 研究方向: NLP、智能体 RAG、AI-HCI 可控性、情境工程
- 可解释 AGI、交互式对话模型 (IDM)、持续学习、AI 涌现

东华大学 AGI 交叉设计实验室

科研与教学顾问 (2024.02 - 2024.12)

- 指导硕士研究生论文
- 辅导本科生升学作品集
- 开发 AI 辅助设计、网页编程相关课程
- 参与计算机视觉与纺织设计科研项目

上海交通大学-中国美术学院 AIGC 联合实验室

客座研究员 (2023.07 – 2024.07)

- 讲授 Python、JavaScript、前端框架
- 从事提示工程、深度神经网络研究
- 参与跨校联合科研项目

新加坡莱佛士设计学院 (上海)

全职讲师 (2023.04 – 2025.01)

- 全英文授课
- 主讲: 色彩理论、数字媒体、网页编程、计算机基础、毕业论文指导
- 开发预科与基础课程体系

康奈尔大学 (康奈尔技术学院, 纽约 – Cornell Tech, NYC)

交换研究助理 (2022.01 – 2022.07)

- 门户系统重构
- AI 增强编程语言研究
- 社会计算与系统工程

上海开放大学

兼职讲师 (2016 – 2018)

- 讲授 UI/UX、界面设计、网页编程、多媒体系统

中国美术学院

课程研发 (2019 – 2020)

- 用户体验与前端课程开发
- 软件与编程教学

代表性科研项目

- 智能座舱 HMI 研究: 降低驾驶认知负荷 65% (拟投国际顶刊)
- 交互式对话模型 IDM: 可解释 AI 提升 0.72–0.89
- RAIDScript: AI 驱动的低代码编程语言
- 环境计算与情境感知系统架构设计

研究论文

1. 从 IDM 到 IDM: 交互式对话模型的演进
2. 从 AGI 到 AGI: 通用交互智能走向通用人工智能
3. 双趣驾驶: 智能座舱交互框架研究

4. 环境计算：必要性、可行性、交互与实现
5. 自然语义可理解的 AI 增强编程语言设计
6. 虚空创世：噪声、混沌、悖论与失败中的 AI 艺术

专业技能

- 教学：全英文授课、课程设计、论文指导
- AI/ML：大模型、提示工程、PyTorch、TensorFlow、NLP
- 开发：Python、Java、JavaScript、React、Vue、Node.js
- 设计：Figma、Adobe 系列、UI/UX、信息架构
- 工程：Git、CI/CD、云服务、VPS、测试部署

行业与项目经验（精选）

纽约大都会运输署、契域金融、UDFEx 国际物流、中国银联、银生支付、智联招聘、前程无忧、爱立信中国
