

Senior HCI practitioner turned researcher, bridging 20+ years of large-scale UX engineering with AI-powered, human-centered information systems.

RESEARCH INTERESTS

Human-Computer Interaction · Generative AI for Shared Agency · AI-powered Software Engineering · Information Architecture in Social Computing · Inclusive Design Tools · Creative Learning Systems

EDUCATION

Stevens Institute of Technology, Hoboken, NJ

M.S. in Computer Science, expected May 2026

M.S. in Software Engineering, Jan 2023, GPA 3.73/4.0

China Academy of Art, Hangzhou, China

Bachelor of Arts, Communication Design 07/2000

RESEARCH & SELECTED PROJECTS

Research Assistant

Donghua University AGI Lab (Prof. Feng Lin) & Shanghai Jiao Tong University AIGC Lab

09/2024 – Present

- Co-developing generative HMI for L3+ co-driving (simulator N=42, 65 % cognitive load reduction)
- Building prompt-optimization pipelines for design education (40 % visual consistency gain)

Lecturer & Researcher

Raffles Design Institute Shanghai

04/2023 – 12/2024

- Single-handedly refactored institutional ERP into RafFlow — a generative learning studio for 3,00+ design students
- Reduced faculty grading time by 60 %, doubled submission rates

RafFlow – Student-Lecturer Learning and Grading System for Art & Design Education

Stevens Institute of Technology & Raffles Shanghai, 2023–2025

- Single-handedly refactored institutional ERP into an AI-native platform for 300+ students
- Reduced faculty grading time by 60 %; doubled assignment submission rate

DouFunDriving-HMI – Real-Time Co-Driving Interface for L3+ Vehicles

Donghua University AGI Lab (Prof. Feng Lin), 2024–2025

- Simulator study (N=42) achieved 65 % driver cognitive load reduction
- English manuscript targeted for the International Journal of Human-Computer Studies (2026)

RAIDScript – Rapid Artificial Intelligence Designable Markup-Script Programming Language

Stevens Institute of Technology, 2022–2025

- Zero-code multimodal DSL enabling real-time co-creation for non-technical designers
- Core engine powering both RafFlow and DouFunDriving-HMI

Interactive Dialogue Mode (IDM) Framework

Stevens CS 810 Explainable AI Course Project, 2025

- Human-in-the-loop clarification framework for LLMs
- Improved explanation quality (Mini LLM +0.72, ChatGPT +0.89) while reducing cost by 13–40 %

Environmental Human Behavior-driven Social Computing Research Thesis

Stevens SSW 565 System Architecture Project, 2022

- Multi-layer information-flow architecture proposal for next-generation urban socio-technical systems

PROFESSIONAL EXPERIENCE (2000 – 2020, summary)

UI/UX Designer · Frontend Engineer · Creative Director · CTO (2000–2020)

Online21 · Ericsson China · 51job · Zhaopin · China UnionPay · Qiyu Financial · Zeneo

- Led frontend and UX teams delivering employment and financial platforms serving 100M+ users.
- Established information architecture and usability workflows adopted across multiple large-scale systems.
- Experience directly informs current research on information flows and AI-augmented interaction.

ACADEMIC APPOINTMENTS

Research Assistant, Donghua University AGI Lab · 09/2024 – Present

Lecturer, Raffles Design Institute Shanghai · 04/2023 – 12/2024

Teaching Adjunct, SJTU–CAA AIGC Center · 09/2023 – 07/2024

Teaching Advisor, Donghua University · 09/2023 – 12/2024

SKILLS

Programming: **Python, Java, JavaScript**

AI / ML Tools: **spaCy, LLM integration, prompt engineering**

Frameworks: **React, Streamlit, Node.js, AngularJS, Bootstrap**

Design Tools: **Figma, Adobe CC, Axure**

Data / Analysis: **Matplotlib, experimental design**

DevOps: **Git, GitHub, CI/CD, VPN & remote deployment**

Testing: **unittest, JUnit, coverage tools**
